Naeem Brown

FRONTEND ENGINEER | UI/UX-FOCUSED DEVELOPER

Cape Town, South Africa • +27 71 345 1241 • naeembrown544@gmail.com • naeembrown.com • github.com/NaeemBrown • linkedin.com/in/naeembrown544

PROFESSIONAL SUMMARY

Frontend Engineer and UI/UX Developer with six years of experience designing and building responsive web applications, interactive 3D interfaces, and internal SaaS tools. Proven track record of translating complex UX requirements into accessible, high-performance interfaces using TypeScript, React, Vue/Nuxt, Angular, and Tailwind CSS. Reduced e-commerce Largest Contentful Paint (LCP) by 97.5% (from 40s to ~1s) and delivered over $5,000 (R82,200) in annual software cost savings through custom frontend tooling and API integrations.

TECHNICAL SKILLS

Frontend Core	TypeScript, JavaScript (ES6+), React, Vue, Nuxt, Angular, HTML5, CSS3, Tailwind CSS, Progressive Web Apps (PWA)
UI/UX & Accessibility	Figma, UI/UX Design, User-Centred Design, Interactive Prototyping, Wireframing, Design Systems, Responsive Web Design, Keyboard Accessibility
3D & Motion UI	Three.js (WebGL), TresJS, GSAP, Interactive 3D Environments, Twitch Embed Integrations
Backend & Data	Supabase, Firebase, SQL, REST APIs, OAuth 2.0, Colyseus (WebSockets), Shopify, Lightspeed POS, Python, C#, Java
Cloud & DevOps	Cloudflare, Vercel, Netlify, Microsoft Azure, Docker, Git, GitHub, PowerShell, Bash

PROFESSIONAL EXPERIENCE

Frontend & Systems Engineer | *Pet Plus* — 2025 – Present

- **Storefront Performance Overhaul:** Rebuilt the web storefront UI and configured Cloudflare caching, reducing Largest Contentful Paint (LCP) by 97.5% from 40 seconds to approximately 1 second.
- **Workforce Progressive Web App:** Designed and built an installable React and Supabase staff PWA (in dev) with Google OAuth 2.0 authentication for shift rosters, clock-ins, and daily store routines.
- **Custom Dashboards & Internal Tooling:** Engineered financial dashboards for Lightspeed POS and Shopify alongside embedded custom applications inside Lightspeed, reducing operational software costs by more than $5,000 (R82,200).

Full-Stack & Integrations Engineer (Infrastructure Engineer) | *Pet Plus* — 2022 – 2025

- **E-Commerce Synchronization:** Designed and implemented the first automated synchronization pipeline between Lightspeed POS and Shopify, keeping multi-store inventory and sales data aligned.
- **API Integrations & Architecture:** Negotiated partner API access and built custom integrations connecting third-party business systems, internal code repositories, and cloud infrastructure.

Web & UI/UX Developer | *Freelance* — 2020 – Present

- Designed and developed responsive websites and web applications using Vue, Nuxt, React, TypeScript, and Tailwind CSS.
- Translated UX requirements into reusable, developer-friendly interfaces with responsive layouts and full keyboard navigation.

FEATURED UI/UX & FRONTEND PROJECTS

Legal Dashboard — UI/UX Design Prototype — Live Demo

TOOLS Angular, TypeScript, UI/UX Design, Vercel

Designed and prototyped a configurable legal case-analysis dashboard featuring drag-and-resize panels, switchable data charts, docked navigation, saved workspace layouts, and full keyboard accessibility. Generic names are used for privacy protection.

SIN Esports — Interactive WebGL Platform — sin-esports.com

TOOLS Nuxt, Vue, Three.js (WebGL), GSAP, Twitch Embeds, Cloudflare

Developed a custom WebGL experience for a South African esports organisation, featuring interactive team divisions, limited clothing drops, fluid GSAP motion, and live Twitch stream embeds.

Chiisai Games — 3D Browser & Custom Desktop OS UI — chiisaigames.pixelatedindustries.com

TOOLS Nuxt, Vue, TresJS, Three.js, Colyseus (WebSockets), Cloudflare

Designed an immersive 3D UI in TresJS and Three.js paired with a custom virtual desktop environment where users can browse and launch multiplayer web games in real time.

EDUCATION

Bachelor of Computer Science | *Varsity College* — 2022 – 2025

Higher Certificate in Information & Communication Technology | *Cape Peninsula University of Technology* — 2021
